Option Front Basket.

Industrial Hauler

*This is a recreational unit, not designed for excessive speeds or misuse.
Careless operation may cause ride to lose control and result in serious injury.
Do not brake or turn at high speeds; this may cause to roll-over and rider injury.*

Things to know before riding you cycle:

1. Know your local bicycle laws and wear a helmet.
2. Do not exceed the recommended weight limit 500 lbs.
3. Do not stand on unit.
4. Wear light-colored clothing.
5. Do not ride at night.

MAINTENANCE AND INSPECTION

REGULAR MAINTENANCE: Bi-Monthly

1. Keep all painted parts cleaned and waxed for along-lasting luster.
2. Lubricate the following:
 - Axle shafts
 - Chain- turn pedal crank forward and spray freely.
3. When storing over prolonged periods, turn upside down to prevent flats from occurring on the tires. If stored outside, cover to protect finish and moving parts.

PREVENTIVE MAINTENANCE: Every Six Months

These are services that should be performed by you local bicycle shop. A fee may be charged.

1. Check tires for wear, rim cuts and valve core alignment (usually caused by improper air pressure)
2. Check wheels for cracks and alignment.
3. Check brakes for proper operation.
4. Check and repack all bearings and adjust all cones.
5. Check for worn bearings, cones and cups.
6. Check chain for adjustment and clean as needed.
7. Check for loose bolts and nuts.

Attention: While your unit is new, some noises may occur when the unit is breaking in. Should they continue for more than 30 days, see local bike shop.

INSPECTION

Check the following, as it applies to your cycle, on a regular basis:

1. Hand Brake: Make sure the brake engages, by squeezing the hand brake.
2. Wheels: Check wheels for alignment.
3. Pedals: Inspect pedals and make sure pedals is tightly attached to crank.
4. Handle grips: Replace worn or loose grips.
5. Chain: Check for proper tightness. Replace damaged chain immediately.
6. Seat: Adjust seat for ride comfort and safety.
7. Tires: Keep tires inflated to the recommended tire pressure, as indicated on the tire's sidewall.
8. Frame: Replace damaged frame immediately.

INDUSTRIAL

This is a recreational unit, not designed for excessive speeds or misuse.

Do not brake or turn at high speeds. This may cause cycle to roll over. Careless operation may cause rider to lose control and result in **serious injury**.

Things to know before riding your cycle:

1. Know your local bicycle laws and wear a helmet.
2. Do not exceed the recommended weight limit of 250 lbs.
3. No more than one rider at one time.
4. Do not stand on unit.
5. Be sure to install safety flags.
6. Wear light-colored clothing and protective gear.
7. Do not ride at night.
8. Children must be supervised by an adult at all times.

Trailmate Limited Warranty

Trailmate, Inc., guarantees each cycle product against all defects in materials and workmanship for a period of 90 days from date of purchase. Tires and tubes are not covered by this guarantee.

During this period, any part that is judged by the makers to be defective will be replaced free of charge. Any failure resulting from accident, abuse, neglect, normal wear, or improper assembly or maintenance by the owner is not covered.

Trailmate, Inc., further authorizes a lifetime frame guarantee and will replace any frame, at no cost to the buyer, providing that item has not been used for rental use and that:

- 1) The item has not been altered, repaired, or modified in any way.
- 2) The item has not been subject to misuse, negligence, and/or an accident.
- 3) Original ownership is established.

Any parts under this guarantee on which claims are entered shall be returned for inspection with transportation charges prepaid by the claimant. Replacement parts will be shipped F.O.B. factory.

There are no warranties or guarantee, expressed or implied, written or oral, which extend beyond the description on the face hereof.

18.		Installation Instructions	1

Kit Installation Preparation

Remove chainguard. Loosen the frame, bearing holder and CB hub bolts . Remove chains. Remove CB hub.

Step 1

Install the 3-sp CB Hub (6) into the open-ended slot. Refer to drawing for the location of hub (6) and correct hub position. Make sure the sprockets line up properly.

Step 2

Install front chain around crank sprocket and outside sprocket on brake hub. Install rear chain on solid sprocket on rear axle. Slide frame assembly apart until chains are tight. Tighten the frame nuts first and then axle nuts. NOTE: When tightening nuts, make sure that frame and hub are straight and not out of alignment. Tighten the nut and screw on the brake arm. Install chainguard.

Step 3

Install grip shifter (13) onto left side of handlebar. Fasten plastic cable stop (2) to hub holder cable guide (4). Run cable from grip shifter down along main frame tube and into plastic stop. Secure cable housing to frame tube with cable ties (1).

Step 4

Refer to drawing and Diagram 1 of Sturmey Archer Installations Instructions for connecting cable to hub and gear adjustment.
